Vol 4 Issue 4

Fourth Quarter 2009

A New Institute!

A couple of Special Operations Colleges grew into several, prompting the formation of a brand new Institute!. *[See page 3.]*

New Courses Offered

A substantial number of new courses have been added to several Colleges this last quarter. *[See page 4]*

Academy Graduates

The number of graduates from STARFLEET Academy has risen sharply in the third quarter. *[See the list beginning on page 17.]*

Staff News

Faculty and Staff members move on to other ventures and new Directors volunteer to carry on our service to the members of STARFLEET. *[See page 6 for details]*

So You Want to be a Director

Do you want to serve the membership on a one-on-one basis? Do you want to share your educational experience with your fellow Trekkers? There are a few basic requirements to join the faculty of STARFLEET Academy. *[See page 6 for details]*

The Commandant's Corner

By Admiral Peg Pellerin,
Academy Commandant

Greetings from the great Halls of Learning, STARFLEET Academy.

Well, two years have gone by since I started my tenure as you STARFLEET Academy Commandant. Affirmative, I have only one more year to go. I came into this position filled with anxiety; not knowing if I could actually do the job. My fears were quelled quickly thanks to the knowledgeable staff that has helped me out throughout this term. I've been called the *Silent 'Dant* because I'm not heard from as often as some of my predecessors. Those of you, who have come to know me, know that I speak out when I feel strongly about something; such as the cheating policy that I worked on along with my administration in order to make it firm but fair for all members. I took this position to assure that STARFLEET Academy would remain as it has always been, the Jewel of STARFLEET. If anything else, STARFLEET Academy is the place where any member can feel they are active in some way in their fan club.

Some may not consider me a strong leader. I have always felt that I'm not here to be pushy and use my position as status quo. My position is to listen, hear. I have listened to many opinions and have based my decisions upon them. Some of my decisions may not have been favorable, but they were made for what I have felt to be for the good of the membership of STARFLEET.

I may not have pleased some of the staff &/or members all of the time, but I do hope I have pleased most of the staff &/or members most of the time. I will continue my final year as 'Dant the same as I have my previous two years; to be there for the members of STARFLEET. I have and continue to be able to do this only because I have the best team in STARFLEET. That team is comprised of those I have come to feel as family, the directors, deans and administrators of STARFLEET Academy.

What can I say; STARFLEET Academy is a continuous working machine. It continues to grow and improve itself. To paraphrase one of my administrator's comments to me one day; STARFLEET Academy's directors are making an extreme effort to enrich the Academy. I don't think we'll ever run out of something for everyone's interest. If we do, please let us know.

Adm. Peg Pellerin
SFA Commandant
mrspeapod@myfairpoint.net
academy@sfi.org

Have pride in how far you have come. Have faith in how far you can go. (Motto at Winslow High School where I am employed).

Academy Institute News

Institute of Special Operations

By Admiral Carol Thompson

The formation of the STAR division Special Operations, sparked the need for training to compliment the activities of the Units for promotions and certifications. Hence was born the College of Special Operations Training (CSOT). It was placed in the Institute of Military Science.

This College was quickly followed by the College of SpecOps Units (CSOU) and the College of SpecOps in Movies (CSOM). With another College in the making, the College of SpecOps Resources (CSOR) it was clear that SpecOps was going to overwhelm the Star-Trek based College of Military Science.

So, in a brainstorming session between Admiral Carol Thompson and Vice Admiral Glen Diebold, it was decided to petition Peg and Marlene for a new Institute to separate the real-life subject matter of Special

Operations from the Star Trek Military and Security material in the Institute of Military Studies.

The verdict was an immediate "Yes," so Glen, JT (the victim who had to retool the SpecOps web pages), and I began to reshuffle courses between the Colleges and prepare to move the Colleges into their new Institute, the Institute of Special Operations (IOSO.) The Institute will go Live January 1, 2010.

It was also decided that Glen will take the Deanship of the new IOSO and Carol Thompson will slip into the deanship of the Institute of Intelligence Operations, replacing Glen in that capacity. The change in Deans will be seamless since both Carol and Glen created the IOIE early in 2006.

But that is another long story!

The material covered in the IOSO is different from that of the Special Operations Branch offered by the SFMCA. The IOSO covers Special Operations among all armed forces in the US and many around the world.

Reception to the Special Operations courses has been excellent, and we hope that many more STARFLEET members explore the world of Military Special Operations.

Academy College News

College of SpecOps Training

The College of SpecOps Training has cloned off its equipment and resources schools to the new College of SpecOps Resources.

College of SpecOps Units

The College of SpecOps Units has added a school of World Wide SpecOps units with 19 courses.

College of SpecOps Resources

The College of SpecOps Resources split off from CSOT, handling equipment and other SpecOps resources.

College of Sci-Fi TV

The College of Sci-Fi TV is closed while the pending director “tests out.” Meanwhile several sets of exams have been removed to their own Colleges, Farscape, SG1, Dr. Who and Babylon 5. Expect this trend to continue as more TV series appear on DVD.

College of Farscape

This new College has combined the old COSFTV and CIS exams with new exams that challenge the Farscape fan.

College of Babylon 5

This new College combines the old exams in COSTV with new exams that more deeply explore the universe of Babylon 5.

College of Mathematics

The College of Mathematics offers one new FUN course in Egyptian Algebra!

College of Treknology

The College of Treknology has added exams for ST 6 movies.

College of Engineering

The College of Engineering offers several new upper level courses.

College of SpecOps in Movies

This College has grown to 18 exams this quarter.

College of Intel Operations

The CIO has added a school of VIP Protection with 9 courses.

College of United Kingdom

The College of the UK is open with a very good response from the membership. It offers schools on England and Ireland with pending schools covering Scotland and Wales.

Academy College News

College of Humor

By Fleet Captain Ros Haywood

Humour is just something to do with making you laugh, isn't it? (including whether to spell it humor or humour).

The first course in this new SFA college splits the concept into separate definitions, so that when you split your sides laughing, you know what you're laughing at. Here, we talk about jokes, timing, hyperbole, puns, satire, irony, snowclones, slapstick, caricature, parody, farce, and burlesque. A future course still in pre-production investigates humour as it applies to Star Trek – the captains, several characters, and various species.

The College of Humour is not just a collection of jokes (although there are a few here and there; the author just couldn't help it!). The only prerequisite is that you know how to smile, and can have fun along the way!

The new College combines the old exams formerly offered in COSFSTV and the IOIE:CIS with new exams. Students who have taken the existing exams need not retake them. Their credits are still on their records, just renamed.

It is expected that more exams will be written in the future.

College of Babylon 5

By Admiral Carol Thompson

It was the dawn of the third age of mankind, ten years after the Earth-Minbari War. The Babylon Project was a dream given form. Its goal: to prevent another war by creating a place where humans and aliens could work out their differences peacefully. It's a port of call, home away from home for diplomats, hustlers, entrepreneurs, and wanderers. Humans and aliens wrapped in two million, five hundred thousand tons of spinning metal, all alone in the night. It can be a dangerous place, but it's our last, best hope for peace. This is the story of the last of the Babylon stations. The year is 2258. The name of the place is Babylon 5.

With a still-active and rather large fanbase, this series (1994 – 1999) sparked a number of online RPG's, a number of movies and a short-lived series *Crusade*.

This new College combines the old exams formerly offered in COSFSTV with new exams. Students who have taken the existing exams need not retake them. Their credits are still on their records, just renamed

This College will be expanded to include more races, the movies and *Crusade*.

College of Farscape

By Admiral Carol Thompson

Astronaut John Crichton assumes he'll be home in time for dinner. But a freak accident during an experimental space mission catapults him across a thousand galaxies to an alien battlefield. Suddenly, he's trapped among alien creatures wielding deadly technology - a battle that 20th century sci-fi pop culture never prepared him for. Hunted by a merciless military race, Crichton begins his quest for home from a galaxy far, far away...

Thus began the epic adventure "Farscape", the groundbreaking award-winning sci-fi production that has become a fan favorite around the world. (1998-2002)

Academy Staff News

These include changes in Academy staff since October 1, 2009

Staff Changes

Admiral Carolyn Donner stepped down from the position of Dean of the Institute of Alien Studies, citing a very busy real life. Admiral Peg Pellerin, no stranger to the duties of a Dean, has stepped into this position.

Vice Admiral Glen Diebold has taken the Dean's position over the new Institute of Special Operations.

Admiral Carol Thompson has taken over the Dean's position of the Institute of Intelligence & Espionage.

Director Changes

Carol Thompson	College of Farscape College of Babylon 5
Ros Haywood	College of the UK College of Humour
Lee Vitasek	Ferengi Orientation
Glen Diebold	SpecOps Resources
Robert Hewitt	Xeno Studies Cadet Xeno Studies
Tom Pawelczak	Bond, James Bond
Russell Ruhland	Chaplains' College

So You want to be a Director

Basic requirements are: Be at least 18 years old, and have taken OTS, OCC, and FOS 101.

To assume a vacancy you must pass all of the exams in the College, or if a large college, 75% of the exams.

To direct a College of your own creation, first check the College catalogue to make certain your idea is not already being used.

If the concept is not being used elsewhere, submit a College outline, exam, and key to the Course Development Contact, Carol Thompson, at Betazoid@mosquitonet.com She will determine where your College fits within the Academy structure and introduce you to your Dean, who will lead you through the approval process.

Academy Information

Further information about Academy, its staff and faculty, courses offered, and scholarships will be found at the following website:

<http://www.academy.sfi.org/index.php>

Academy Graduates

October 1, 2009 thru December 31, 2009

4270 graduates/ ave. 1423 per month. Numbers following names are approx. exam counts for that student.
